

# IOSA Consulting

## Improve your safety record and get ready for IOSA

The IATA Operational Safety Audit (IOSA) is the global standard for safety, recognized around the world as the benchmark safety audit program. To help airlines prepare for the safety audit, Lufthansa Consulting offers hands-on advice with highly qualified experts that provide assistance beyond the IOSA Standards Manual.

Lufthansa Consulting has expertise in all eight IOSA sections. Our professional competence, coupled with our focus on audit-relevant areas and commitment to separating consulting and audit services, ensures that our clients will be fully prepared for the IOSA Audit and meet the highest standards of safety in the aviation industry.

Lufthansa Consulting has also recently assisted airlines in IOSA Preparation and performed Gap Analyses for operators such as: Vladivostok Avia, Air Ivoire and Yakutia Airlines.

We further specialize in supporting airlines before and after IOSA preparation visits (IPVs) and main IOSA audits, as well as recurrent audits.

***We're with you every step of the way.***
